SUBJECT INDEX

A

Abortions, spontaneous, Finnish flight attendants, 486
Absenteeism: *see also* Sick leave
  depression and, 605
  headache and, pilot study, 202
  occupational medicine practice impact on in community (letter), 1
  occupational morbidity in U.S. and, 60
Abstracts, AOHC scientific sessions, 313
Adolescents, injuries in fast food restaurants, 1146
Aerospace workers, chemical exposure of rocket-engine test personnel, cancer mortality, 903
Agricultural chemicals facility, chest wall pain and rhabdomyolysis from chloropicrin exposure, 17
Agricultural workers
  fatal harmful substances and environmental exposures in, 699
  Q fever in, New South Wales, 273
Air pollution, particulate, health effects costs of, 847
Air pressure vessels/tools, fatal and nonfatal injuries from, construction workers, 100
Alanine aminotransferase, HAZMAT firefighters and, 589
Alcohol abuse, screening for, counterfeit urine samples and, 622
Alcohol abuse/dependence, veterans of Gulf War and, 384
Alkaline comet assay, DNA damage monitoring in low-dose radiation exposure, 693
Allergies, contact, *p-tert*-butylphenol-formaldehyde resin and *p-tert*-butylcatechol, sensitizing capacities, 23
American College of Occupational and Environmental Medicine (ACOEM)
  multiple chemical sensitivities, position statement, 940
  occupational medicine forum, 533
  state licensing laws and interstate practice of occupational medicine, 911
American Occupational Health Conference
  abstracts of scientific sessions, 313
  exhibitors, 320
Americans With Disabilities Act, workplace guidelines for functional ability assessment and, 172
δ-Aminolevulinic acid dehydratase genotype, lead susceptibility and, 662
Ammonium perchlorate, exposure to, thyroid health status and, 248
Amphetamine, positive drug testing for, when using Didrex (letter), 139
Anemia, lead exposure in battery-factory workers and, 120
Angiosarcoma, liver, vinyl chloride exposure and, 521
Antidepressant therapy, employee absenteeism and, 605
Antihistamines, work productivity loss due to, 948
Antineoplastic agents, exposure to, miscarriages and stillbirths related to, self-reported, 632
Anti-p53 antibody, in vinyl chloride monomer workers, Taiwan, 521
Anxiety, veterans of Gulf War and, 384
Arc welders, chromium and nickel exposure, cancer mortality, 294
Arm: *see* Upper extremity
Asbestos, call for ban on, editorial, 830
Aspartame, carpal tunnel syndrome and (letter), 418
Aspartate aminotransferase, HAZMAT firefighters and, 589
Assault, convenience store clerks, risk factors for, 995
Asthma, trimellitic anhydride-induced, immunoglobulin E antibody and, 190
Atopy, occupational asthma development, trimellitic anhydride and, 190

B

Back injuries
  low, predictors and secondary prevention implications, 1024
  wellness program effects on rate, offshore petroleum employees, 813
Back pain: *see* Pain
Bank robbery, employee mental health, work performance, and physical health impact, organizational response and, 73
Battery factory, lead exposure in, association with anemia, 120
Bell's Olfactory-Limbic Model, cognitive profile of multiple chemical sensitivity and, 366
Benzene exposure, complete blood count variations in, 821
Beryllium disease, beryllium copper alloy exposure and, 304
Biomarkers, salivary immunoglobulin A and lysozyme as, stress in nurses, 920
Blood cell counts, benzene exposure effects on, 821
Blood exposure, Universal Precautions compliance in correctional health care workers, 181
Blood pressure, HAZMAT firefighters and, 589
Body fluid exposure, Universal Precautions compliance in correctional health care workers, 181
Body mass index, hazardous materials firefighters and, 589
Bone, lead levels in, lead in drinking water 20 years earlier and, aging study results, 349
Book reviews, 72, 127, 311, 413, 531, 1172
Brain regions, limbic, multiple chemical sensitivity and, 366
British Columbia
  cancer risk identification, 224
  prostate cancer risk identification, 233

Burns, protective wear influence on severity of, firefighters, 469
p-tert-Butylphenol-formaldehyde resin, *p-tert*-butylcatechol and, contact allergies and sensitizing capacities, 23

C

Cadmium workers, beta-2-microglobulin levels in (letter), 745
Cancer
  chromium and nickel exposure and, arc welders, mortality rates, 294
  disability rates, cleanup workers and nearby residents of waste sites, 331
  incidence rates, in pesticide applicators, 279
  lung
    occupational risk factors in Greece, 29
    refinery workers, 1091
  mortality rates
    chemical exposure of rocket-engine test stand personnel, 903
    cleanup workers and nearby residents of waste sites, 331
    polychlorinated biphenyls exposure and (letter), 741
    polychlorinated biphenyls exposure and (letter), 739
    welders, geographical information system technique for record-matching, 464
  non-Hodgkin's lymphoma, chlorophenol exposure and, 267
  prostate
    risk estimates, tire and rubber manufacturing, 1079
    risk identification, in British Columbia, 233
  risk identification, in British Columbia, 224
  uranium processing workers, mortality rates, 556
  urinary tract tumors, dinitrotoluene exposure and, miners, 144
  urothelial, dinitrotoluene exposure and, miners, 144
Capacitor workers, polychlorinated biphenyls exposure, mortality study, 161
Cardiovascular disease
  physical inactivity and, 794
  shift work and, 748
Carpal tunnel syndrome, aspartame use relation to (letter), 418
Cement plant, dust exposure and health effects, risk indicators for, 654
Chemoprophylaxis, after HIV exposure, health care workers, 754
Chest illness, forced expiratory volume and, steelworkers, 1085
Chest wall pain, chloropicrin exposure and, 17
Chlorophenol
  Hodgkin's disease and, 36
  non-Hodgkin's lymphoma and, 267
Chloropicrin, exposure to, chest wall pain and rhabdomyolysis after, 17
Cholesterol, HAZMAT firefighters and, 589
Chromatography, gas, methyl ethyl ketone detection in urine and, 1042
Chromium
  arc welders, cancer mortality, 294
  hexavalent, allergic contact dermatitis and, 150
Chronic fatigue syndrome, Gulf War veterans and, 443
Cognitive behavioral therapy, Gulf War veterans' illnesses and, 440
Cognitive weakness, multiple chemical sensitivity and, 366
Composite production, dermatoses and, 261
Construction workers
  air pressure vessels and tools, fatal and non-fatal injuries from, 100
  fatal injuries involving cranes, 1052
Contusions, fire fighters and, 104
Convenience store clerks, risk factors for robbery and, 995
Copper-mining industry, dinitrotoluene exposure and, urinary tract tumors and, 144
Correctional health care facilities, Universal Precautions compliance in, 181
Cost
  control of through utilization management, workers' compensation, 625
  depression-related, employee absenteeism and, 605
  genetic screening for toxicant susceptibility, 535
  particulate air pollution, 847
  workplace fitness program, 195
Creatine phosphokinase, increased levels, chloropicrin exposure and, 17
Critical incident stress debriefing, traumatic events in workplace and, 73
Cumulative trauma disorders, intervention program for reduction in workplace, 833

D

Data collection, occupational history, medical students (letter), 829
Department of Energy, occupational health service structure and function, 1072
Depression
  employee absenteeism and, 605
  veterans of Gulf War and, 384
Dermatitis
  allergic contact, hexavalent chromium exposure and, 150
  p-tert-Butylphenol-formaldehyde resin and *p-tert*-butylcatechol and contact allergies, 23
  fiber-resin composite production plant and, 261
Dermatoses, fiber-resin composite production plant and, 261
Diabetes mellitus, type I, employment factors, 1005
Didrex, positive drug testing for amphetamine and methamphetamine when using (letter), 139
Diet, worksite health promotion trial, 545
Dinitrotoluene, urinary tract tumors and, miners, 144
Disability
  cancer and, cleanup workers and nearby residents of waste sites, 331
  decisions, workplace guidelines for functional ability assessment and, 172
  low back pain workers' compensation, management of, 397
Disease transmission, tuberculosis, tuberculin skin test evaluation in inner-city medical center health care workers, 393
Disinfectants, ethylene oxide, working conditions and health effects of, in hospital sterilization sites, 492
Downsizing, job-related stress and, 289
Drowning, agricultural workers, 699
Drug screening
  counterfeit urine samples in, 622
  marijuana metabolites in urine after consumption of hemp seed tea, 510
  positive for amphetamine and methamphetamine, when using Didrex (letter), 139
  race effects on results, 612
Dust exposure, cement plant workers, risk indicators for, 654

E

Editorials
  call for an international ban on asbestos, 830
  laboring for longevity, 617
  vibration, pathophysiology, and industrial control, 419
Education
  incorporating environmental/occupational medicine theme in medical school curriculum, 47
  occupational and environmental medicine, developing curricula for primary care residents, 706
Electrocution, agricultural workers, 699
Emergency department, utilization in workers' compensation cases, 686
Encephalopathy, solvent-induced toxic, polyneuropathy absence in, 500
Environmental medicine: *see* Occupational and environmental medicine
Environmental Protection Agency, Superfund site cleanup, need for regulations for, 331
Epidemiology
  cancer mortality
    in uranium processing workers, 556
    in welders, geographical information system technique for record-matching, 464
  cardiovascular dysfunction related to shift work, 748
  ethical issues in use of genetic markers in, 639
  Gulf War veterans illnesses, causation

and treatment, 443
injuries and illnesses among hospital workers in Ohio, 53
injury surveillance, trauma registry as tool for, 514
workplace violence, 647
Epstein-Barr virus, Hodgkin's disease and, 36
Ergonomics, upper extremity musculoskeletal disorders, role, reducing incidence, 1032
Ethics, genetic marker use in epidemiological research, 639
Ethylene dichloride, exposure to, liver function and, 1128
Ethylene oxide, exposure, working conditions and health effects of, hospital sterilization sites, 492
Exposure
ammonium perchlorate, thyroid health status and, 248
antineoplastic agents, miscarriage and stillbirths related to, 632
benzene, complete blood count variations in, 821
beryllium copper alloy, chronic beryllium disease and, 304
blood and body fluids, Universal Precautions compliance in correctional health care workers, 181
cadmium, beta-2-microglobulin levels in (letter), 745
chemical, rocket-engine test stand personnel, cancer mortality, 903
chlorophenol, non-Hodgkin's lymphoma and, 267
chloropicrin, chest wall pain and rhabdomyolysis after, 17
chromium and nickel, arc welders and, mortality rates, 294
dinitrotoluene, urinary tract tumors and, miners, 144
dust, cement plant workers, risk indicators for, 654
ethylene dichloride, liver function and, 1128
ethylene oxide, working conditions and health effects of, hospital sterilization sites, 492
fatal harmful substances and environmental exposures in agriculture, 699
fuel-oil ash, pulmonary function after, 973
hexamethylene diisocyanate, pulmonary function evaluation after, 378
hexavalent chromium, allergic contact dermatitis and, 150
infertility and, males, Norway, 1116
isocyanates, respiratory symptom prevalence, self-reported, 582
lead
battery-factor workers, association with anemia, 120
lead in drinking water 20 years earlier effects on bone lead levels, aging study results, 349
Profile of Mood States factor structure relation to, 3
methylene chloride, photographic film support manufacturing, mortality rates, 1154
molinate, male fertility assessment, 771
occupational, regional poison center management of calls regarding, 93
organophosphate pesticides, genotoxicity from (letter), 416, 417
perchlorate in drinking water, congenital hypothyroidism rates and, 409
pesticides
cancer incidence rates, 279
Hodgkin's disease and, 36
polychlorinated biphenyls
cancer mortality and (letter), 739, 741
capacitor workers, mortality study, 161
radiation, low-dose, alkaline comet assay for DNA damage monitoring in, 693
respirator protection against, optimization of, 356
solvent, paint manufacturing workers, neuropsychological function in, 1011
tetrachloroethene, renal effects, 11
toluene, printing plant employees, mortality rates, 1134
trimellitic anhydride, lung disease induced by, risks relation to exposure, 1048
trimellitic anhydride-induced asthma and, immunoglobulin E antibody and, 190
uranium processing chemicals, cancer mortality and, 556
vinyl chloride
angiosarcoma of liver and, 521
liver function and, 1128

F

Farmers
fatal harmful substances and environmental exposures and, 699
Q fever in, New South Wales, 273
Fast food restaurants, adolescent injuries in, 1146
Fatalities: *see also* Mortality
agricultural workers, harmful substances and environmental exposures and, 699
air pressure tools and vessels, construction workers, 100
cranes and, in construction workers, 1052
Fecundity, smelter workers and, 678
Fertility
male occupational exposure effects on, Norway, 1116
male workers, after molinate exposure, 771
Fiber-resin composite production, dermatoses and, 261
Fibromyalgia, Gulf War veterans and, 443
Firefighters
fitness for duty evaluations (letter), 213
hazardous materials, body mass index correlates in, 589
injuries in West Virginia, 104
protective wear effects on exercise duration, 1104
protective wear influence on burn injury severity, 469
Fitness evaluations, firefighters (letter), 213
Fitness program, worksite, approach to evaluation of, 195
Flight attendants, spontaneous abortions among, Finland, 486
Fluorochemical production, perfluorooctane sulfonate exposure and, 799
Forced vital capacity
HAZMAT firefighters and, 589
hexamethylene diisocyanate exposure and, 378
Fuel-oil ash, exposure, pulmonary function after, 973
Functional ability assessment, workplace guidelines for, 172

G

Gasoline, manganese in, public health impact, 140
Gender
female mortality in rubber industry, occupational cohort study, 807
male fertility assessment, after molinate exposure, 771
polychlorinated biphenyls exposure, capacitor workers, mortality study, 161
Genetic markers, ethical issues in use of, 639
Genetic screening, toxicant susceptibility, cost-benefit analysis, 535
Genotoxicity, domestic use of organophosphate pesticides (letter), 416, 417
Gulf War
health problems related to, psychological disorders in veterans seeking care for, 384
Kuwait oil fires effects on U.S. army troops, 433
veterans
illnesses of, causation and treatment, 443
symptoms of illness in (letter), 939
treatment of illnesses, 440

H

Hand, pain, keyboard keyswitch design effects on, 111
Hand-arm vibration, controlling exposure in workplace, editorial, 419
Hazardous materials
firefighters
body mass index correlates in, 589
duty fitness evaluations (letter), 213
impermeable garments for cleanup of, internal cooling system in, comparison study, 453
workers, impermeable garments for cleanup, internal cooling system in, comparison study, 453
Headache, in workplace, pilot study, 202
Health care, cost control through utilization

management, workers' compensation, 625
Health care facilities, correctional, Universal Precautions compliance in, 181
Health care workers
post-exposure HIV chemoprophylaxis program for, 754
two-step tuberculin skin test evaluation, inner-city medical center, 393
Health service utilization, multiple chemical sensitivity among military personnel and, 928
Health services, occupational, structure and function in Department of Energy, 1072
Heart disease
coronary, job strain and, mail and telephone intervention effects, 216
ischemic, mortality, occupation role in, 960
Helicobacter pylori infection, in large company (letter), 415
Hemp seed tea, marijuana metabolites in urine after consumption of, 510
Hexamethylene diisocyanate, exposure to, pulmonary function evaluation after, 378
Hodgkin's disease, occupational and chemical agent risks, 36
Homicide
analysis in workers 19 or less years of age, 1140
convenience store clerks, risk factors for, 995
Hospital, sterilization sites, working conditions and health effects of ethylene oxide exposure, 492
Hospital workers, injuries and illnesses among, Ohio, 53
Human immunodeficiency virus, chemoprophylaxis after exposure to, health care workers, 754
Hypothyroidism, congenital, perchlorate in drinking water effects on, 409

I

Immunization
influenza, workplace, effectiveness evaluation (letter), 415
jet-injector devices, pathogen transmission by (forum), 533
Immunoglobulin A, as biomarker of stress, nurses, 920
Immunoglobulin E, antibody, trimellitic anhydride-induced asthma and, 190
Infertility, male occupational exposure effects on, Norway, 1116
Influenza, immunization in workplace, effectiveness evaluation (letter), 415
Injury
back, wellness program effects on rate of, offshore petroleum employees, 813
emergency department utilization for, in workers' compensation cases, 686
logging-related, nonfatal, 967
nature of, national epidemiological study in U.S., 60
occupational, reported to insurance companies, Norway, 788
rates, occupational medicine practice impact on in community (letter), 1
support groups for, process and outcomes of, 1059
surveillance, trauma registry as tool for, 514
Insurance companies, occupational injuries reported to, Norway, 788
Isocyanates, respiratory symptom prevalence, self-reported, 582

J

Jet-injector devices, pathogen transmission by (forum), 533
Job situation, neck pain prevalence and, 893
Job stress
managing, mail and telephone intervention, 216
neurobiology of (letter), 746

K

Keyboard design, hand pain and, 111
Kidneys, tetrachloroethane exposure effects on, 11
Kuwait, health effects of oil fires, U.S. army troops, 433

L

Lacerations, fire fighters and, 104
Lead, in drinking water, bone lead levels 20 years later, aging study results, 349
Lead exposure
δ-aminolevulinic acid dehydratase genotype and, 662
battery-factor workers, association with anemia, 120
Profile of Mood States factor structure relation to, 3
Legal issues, state licensing laws and interstate practice of occupational medicine, 911
Life expectancy, trends in (editorial), 617
Limbic brain regions, multiple chemical sensitivity and, 366
Liver, angiosarcoma, vinyl chloride exposure and, 521
Liver function, ethylene dichloride and vinyl chloride monomer exposure, 1128
Livestock handlers, Q fever in, New South Wales, 273
Loggers, nonfatal injuries in, 967
Longevity, trends in (editorial), 617
Lung
cancer
occupational risk factors in Greece, 29
refinery workers, 1091
disease, TMA-induced, risks relation to exposure, 1048
function, weight change and, workplace surveillance studies implications, 596
Lymphoma, non-Hodgkin's, chlorophenol exposure and, 267
Lysozyme, as biomarker of stress, nurses, 920

M

Manganese, in gasoline, public health impact, 140
Medically unexplained physical-symptom syndromes, veterans of Gulf War and, 384
Melamine-formaldehyde resin, dermatoses and, 261
Memoriam, Alan Angus McLean, 937
Mental health, traumatic events in workplace and, 73
Metal grinder, silicosis and mixed-dust pneumoconiosis in, case report, 480
Methamphetamine, positive drug testing for, when using Didrex (letter), 139
Methyl ethyl ketone, detection in urine, gas chromatography and microextraction role, 1042
Methylcyclopentadienyl manganese tricarbonyl, in gasoline, public health impact, 140
Methylene chloride, exposure, photographic film support manufacturing, mortality rates, 1154
Microextraction, headspace solid phase, methyl ethyl ketone detection in urine and, 1042
Military personnel
multiple chemical sensitivity, quality of life and health service utilization and, 928
readiness and fitness, occupational medicine role, 1065
Miners, dinitrotoluene exposure, urinary tract tumors and, 144
Miscarriage, antineoplastic agent exposure and, 632
Molinate, exposure, male fertility assessment, 771
Mood, Profile of Mood States factor structure relation to occupational lead exposure, 3
Morbidity
disabling, in the U.S., 60
HAZMAT firefighters and, 589
Mortality
cancer
chemical exposure of rocket-engine test stand personnel and, 903
cleanup workers and nearby residents of waste sites, 331
polychlorinated biphenyls exposure and (letter), 739
uranium processing workers, 556
welders, geographical information system technique for record-matching, 464
ischemic heart disease, occupation role in, 960
methylene chloride exposure and, photographic film support manufactur-

ing, 1154
polychlorinated biphenyls exposure and, capacitor workers, 161
rates, chromium and nickel exposure in arc welders, 294
rubber exposure, females, 807
toluene exposure in printing plant workers, 1134
Multiple chemical sensitivity
cognitive profile, olfactory-limbic model and, 366
Gulf War veterans and, 443
idiopathic environmental intolerance, ACOEM position statement, 940
military personnel, quality of life and health service utilization and, 928
Musculoskeletal pain
cumulative trauma disorders and, workplace screening impact on, 84
intervention program for reduction in workplace, 833
in sonologists, 981
upper extremity, ergonomics programs for reducing incidence of, 1032
Myocardial infarction, employment resumption and occupational medicine clinic referral after, 943

N

Neck pain, job characteristics as predictors of, 893
Neuropsychological function, solvent-exposed paint manufacturing workers, 1011
Nickel, exposure to, arc welders, cancer mortality, 294
NutraSweet, carpal tunnel syndrome and (letter), 418

O

Obesity, HAZMAT firefighters and, 589
Occupation, ischemic heart disease mortality and, 960
Occupational and environmental medicine
curriculum effectiveness, medical student evaluation, 954
developing curricula for primary care residents, 706
incorporating in medical school curriculum, 47
interstate practice, state licensing laws and, 911
practice, impact on injury rate and lost-time in community (letter), 1
readiness and fitness of military force, 1065
referral after myocardial infarction, 943
Occupational Safety and Health Administration (OSHA)
Respiratory Protection Standard, medical surveillance of respirator users, 989
standards in construction injury, adherence to, 100
Oil fires, health effects of, U.S. army troops, 433
Outcomes
headache reduction program, pilot study, 202
intervention program for reduction of musculoskeletal disorders and cumulative trauma disorders in workplace, 833
support groups for injured workers, 1059
upper extremity and spinal disorder treatment comparison, 761
work-related upper extremity disorders, 884

P

P-32, occupational ingestion of, monitoring techniques to detect dose, 878
p53 protein, in vinyl chloride monomer workers, Taiwan, 521
Pain
back, national epidemiological study in U.S. and, 60
chest wall, chloropicrin exposure and, 17
hand, keyboard keyswitch design effects on, 111
headache, in workplace, pilot study, 202
low back
management of, workers' compensation claims and, 397
management of (letter), 1021
predictors and secondary prevention implications, 1024
musculoskeletal, cumulative trauma disorders and, workplace screening impact on, 84
neck, job characteristics as predictors of, 893
Paint manufacturing workers, solvent-exposed, neuropsychological function in, 1011
Paresthesias, hand, keyboard keyswitch design effects on, 111
People and events, 70, 125, 211, 309, 412, 529, 615, 713, 827, 934, 1019, 1170
Perchlorate
in drinking water, congenital hypothyroidism rate and, 409
exposure to, thyroid health status and, 248
Perfluorooctane sulfonate, exposure, in fluorochemical production employees, 799
Peripheral nerve function, assessment, organophosphate-pesticide applicators, 405
Pesticide applicators
cancer incidence in, Florida, 279
organophosphate, peripheral nerve function assessment, 405
Pesticides
Hodgkin's disease and, 36
organophosphate
genotoxicity from domestic use (letter), 416, 417
peripheral nerve function assessment in applicators of, 405
Phalen test time, keyboard design effects on hand pain and, 111
Phenol-formaldehyde resin, dermatoses and, 261
Physical ability, RCMP evaluation, performance predictors, 669
Physical activity, worksite health promotion trial, 545
Physical health, traumatic events in workplace and, 73
Physical inactivity, health risks and, 794
Pneumoconiosis, mixed-dust, silicosis and, in hard-metal grinder, case report, 480
Poison center, management of calls regarding occupational exposure, 93
Polychlorinated biphenyls
capacitor workers, mortality study, 161
exposure to, cancer mortality and (letter), 739, 741
Polyneuropathy, absence in solvent-induced toxic encephalopathy, 500
Posttraumatic stress disorder, veterans of Gulf War and, 384
Pregnancy
miscarriage and stillbirths, antineoplastic agent exposure and, 632
spontaneous abortions among flight attendants and, Finland, 486
time to, smelter workers and, 678
Prevention programs, injury surveillance and, trauma registry as tool for, 514
Printing plant, toluene exposure, mortality rates and, 1134
Profile of Mood States, factor structure, relation to occupational lead exposure, 3
Prostate, cancer
risk estimates, tire and rubber manufacturing, 1079
risk identification and, 233
Protective wear
burn injury severity in firefighters, 469
exercise duration in firefighters, 1104
impermeable garments for cleanup of hazardous materials, internal cooling system in, comparison study, 453
Psychological disorders, veterans seeking care for Gulf War-related health concerns, 384
Public health
manganese in gasoline and, 141
workplace poisonings, poison center management of calls regarding occupational exposure and, 93
Pulmonary function
after exposure to fuel-oil ash, 973
after hexamethylene diisocyanate exposure, 378
Pulp and paper industry, health and safety management systems, Canada, 857

Q

Q fever, agriculture workers, New South Wales, 273

Quality of life, multiple chemical sensitivity among military personnel and, 928

R

Racial considerations, drug testing analyses, 612
Radiation exposure, low-dose, alkaline comet assay for monitoring DNA damage in, 693
Refinery workers, lung cancer in, 1091
Reproduction effects, smelter workers and, 678
Research
  epidemiological, ethical issues in use of genetic markers in, 639
  geographical information system technique for record-matching, cancer mortality in welders and, 464
  Gulf War veterans' illnesses and, 440
Respirator users, medical surveillance, 989
Respirators, optimization of protection, 356
Respiratory symptoms
  fire fighters and, 104
  prevalence in workers exposed to isocyanates, self-reported, 582
Respiratory tract irritation, Kuwait oil fires and, U.S. army troops, 433
Retinol-binding protein, tetrachloroethane effects on, 11
Rhabdomyolysis, chloropicrin exposure and, 17
Risk
  asbestos ban, editorial, 830
  cancer, identification of, in British Columbia, 224
  cardiovascular disease, physical inactivity relation to, 794
  cleanup workers and nearby residents of waste sites, 331
  health factors and disease, effects on worker productivity, 863
  Hodgkin's disease, 36
  job strain and, mail and telephone intervention effects, 216
  lung cancer, occupational factors, 29
  prostate cancer, identification of, in British Columbia, 224
Robbery
  bank, employee mental health, work performance, and physical health impact, organizational response and, 73
  convenience store, risk factors for, 995
Royal Canadian Mounted Police, physical ability evaluation, performance predictors, 669
Rubber manufacturing
  female mortality in, occupational cohort study, 807
  prostate cancer risk estimates, 1079

S

Safety management
  hospital workers and, 53
  pulp and paper industry, Canada, 857
Sarcoma, soft tissue, phenoxy herbicides and, 279
Screening: *see also* Drug screening
  cumulative trauma disorders and, workers' compensation and, 84
  drug abuse, marijuana metabolites in urine after consumption of hemp seed tea, 510
  genetic, occupational toxicant susceptibility, cost-benefit analysis, 535
Shift work, cardiovascular dysfunction related to, 748
